Sir:

In reply to the Office Action mailed September 13, 2002, please amend the above-identified application as follows:

IN THE CLAIMS:

Please cancel Claims 13-34 without prejudice to or disclaimer of the subject matter contained therein.

Please add new Claims 35-52 as follows:

35. (New) A method for preconditioning one or more first data tables of a decision application server in a search system, the first tables intended to be processed by a search engine responding to queries for selecting records from the first data tables, the method comprising the steps of:

　　-analyzing predicates contained in fields of records intended to fill the first data tables;
